

NING DR

▲ NO PROP FOR YOU

Another new product for the '05 Mustang is Redline Tuning's QuickLIFT hood lift system. Available for just about every late-model Mustang, the QuickLIFT (\$59.95) and the QuickLIFT Elite series systems (\$109.95) get rid of the dreaded prop rod, making engine access that much easier. Plus, the gas springs make opening the hood easier as well. The system includes black e-coated gas springs (Elite series features 316L stainless steel gas springs), high-strength rivets for all brackets, and a full-color instruction manual. Order your '05 Mustang hood lifts through Redline's Web site. Contact: Redline Tuning, Dept. 5.0, (734) 306-1908; www.redlinetuning.com.
